# Time Table Generator

Description

Class time table project main objective is to develop a android app which can help institutions, schools or colleges faculty members to plan and schedule classes and class floor.

Teachers can enter details of the class floor and timings of the classes from starting and ending date with the scheduling the class. Whenever faculty wants to know about class timings he can find them using this app.
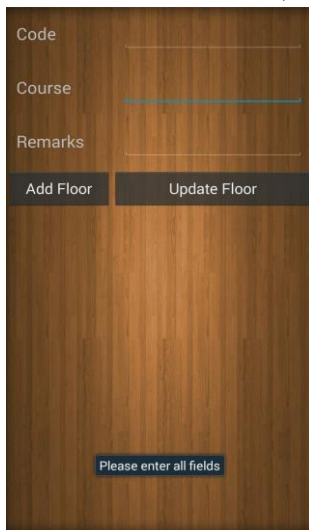

Setting up a timetable, step by step

This is the manual for Class Time. If you've got any unresolved questions or requests, feel free to contact me by mail 13030142024@sicsr.ac.in.

When starting the app for the first time the ClassTime is opened, and you will fine Time Table Generator.

(Figure 1.0 Starting of ClassTime app.)
